

ITS WILL FIGHT FIRES

Protection Unit to Organized in This City

Boy Scouts will immediately unit for fighting forest fires in the immediate vicinity of Ogden, according to an announcement made by Scout Executive G. A. Goates. The organization comes as a direct result of the activity of the scouts in the past few days. During the fire in Jump Off, the boys of the scout unit and a group of many local citizens, object of this unit is to provide organization that can be called upon at any time for service in putting out fires in the mountains, said Scout Executive Goates today. "These boys are trained in fire fighting by the Ogden fire department in the co-operation of R. H. Goates, district forester, having all been assured."

The boys will have the advantage of the latest government equipment for fighting fire, and the city will have at its command an efficient machine, ready and able to be of service.

The organization of this unit will be immediately by leaders in scout-hood and give to Ogden an organization capable of performing duties of this kind with the skill of veterans.

Picture It In Your Home

—this Wonderful Warm-Air Furnace that Looks Like a Phonograph

This picture shows the installation of an Estate Heatrola in a modern six-room home.

Picture one in your home. See what a wonderful improvement it is over a heating stove. Note how beautifully it blends with other home furnishings. It combines the efficiency of a furnace with the appearance of a phonograph.

Estate Heatrola is a furnace—not a stove. Placed in one of the living rooms, it heats 3 to 6 connecting rooms, in even the coldest weather.

Burns any kind of coal, and uses less coal than a stove.

Beautifully finished in grained mahogany—a vitreous enamel, practically everlasting. You can rub and dust it with a cloth, just as you do your furniture.
